With the BLOOM collection, Comatec launches two models of flower-shaped boxes, **Lily and Magnolia**, which are transformed into boxes with a pure and poetic design, thanks to an ancestral folding technique. Suitable for food contact and resistant to sauces or condiments, their self-locking closure mechanism and their highly stable structure preserve the contents and guarantee safe transport. Easy assembly thanks to preformed folding. Flat storage.

COTTON BALUBAG

With **BALUBAG**, Comatec revisits the principle of the bundle to create a contemporary version. An original and reusable concept, easy to carry. Simply knot the fabric according to the inspiration of the moment to reconstitute a nice and clever lunch bag. Once opened, the BALUBAG becomes a table runner or a small picnic tablecloth. It has a central pocket for inserting all kinds of accessories: cutlery, napkins or menu. 100% cotton, bourdon stitch, machine washable (40°C).

BLB90N / BLB90C
BLACK / TURMERIC BALUBAG
90 X 90 CM

PlanetScore®, first rating of our packaging materials

What is PLANETSCORE®?

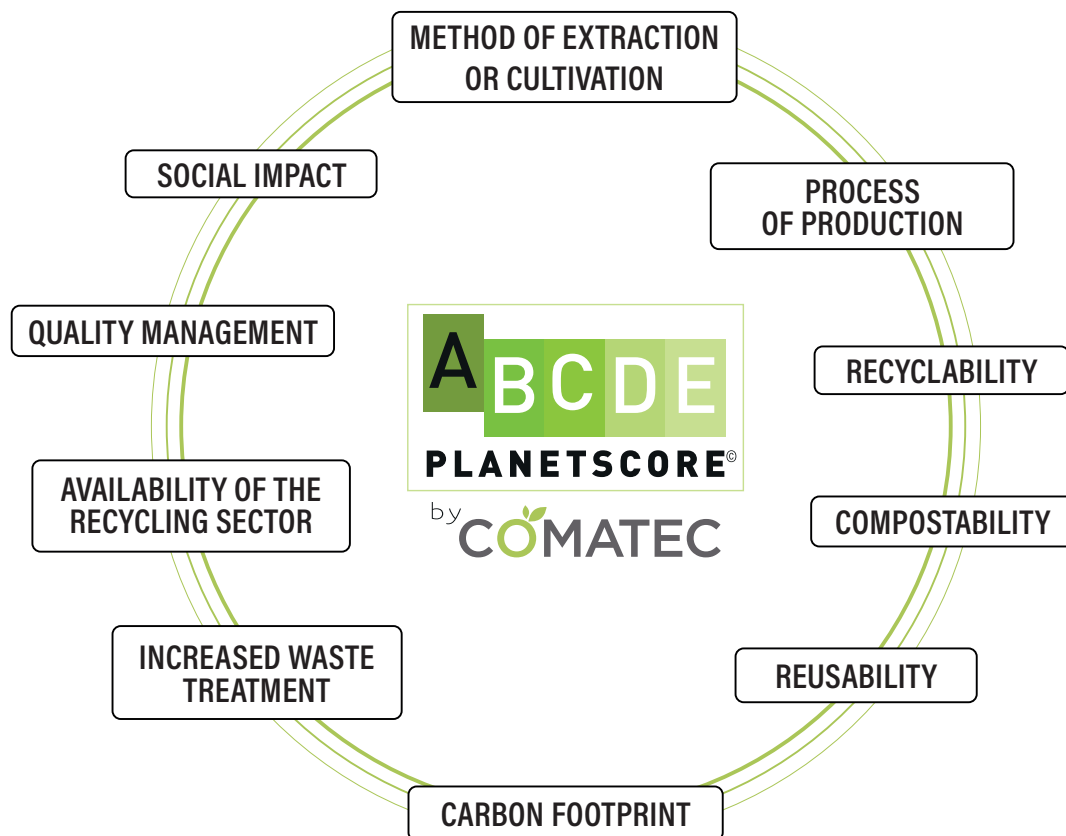

A first ever **tool** in the packaging to score the sustainability of the materials and the products developed or selected by COMATEC.

A **score** on a 5-letter scale (A, B, C, D and E) based on 10 specific criterias relating to the sustainable environmental approach.

A **benchmark** for catering professionals concerned about their eco-responsible approach when choosing a product.

A **manual** used by our R&D department to identify new materials or manufacturing processes.

An **argument** to defend the development of new recycling channels with local and governmental authorities.

by choosing COMATEC, you are supporting our commitments!
