PlanetScore®, our 10 criterias

What is PLANETSCORE® ?

- It is a first ever tool in the packaging to score the sustainability of our products and raw materials that we choose. It's presented as a logo informing about the environmental impact of products developed, selected or distributed by COMATEC.
- It is a 5-letter scale rating (A, B, C, D, and E) based on ten clear criteria regarding a sustainable approach to the environment.
- It is a standard for foodservice professionals which are concerned by an eco-responsible packaging and their choices are driven by concrete sustainable engagements.
- It is a tool used by our R&D department to continue our quest for promising new materials and new production processes, in addition to our collaboration sector.

- By choosing COMATEC, you are supporting our commitments!
